FOREX MARKET

What is Forex?

Source: Bank for International Settlements

Why algorithms supersede manual trading?

Artificial intelligence

Volume of data, processed by robot in minutes, would take days or weeks for team of 10 analysts

Work 24/5

Robot trades completely without human involvement, without salary, sleeping, food, tiredness, breaks and days off

Profitable algorithm

Trading is done by preliminary tested algorithm, which brings profit

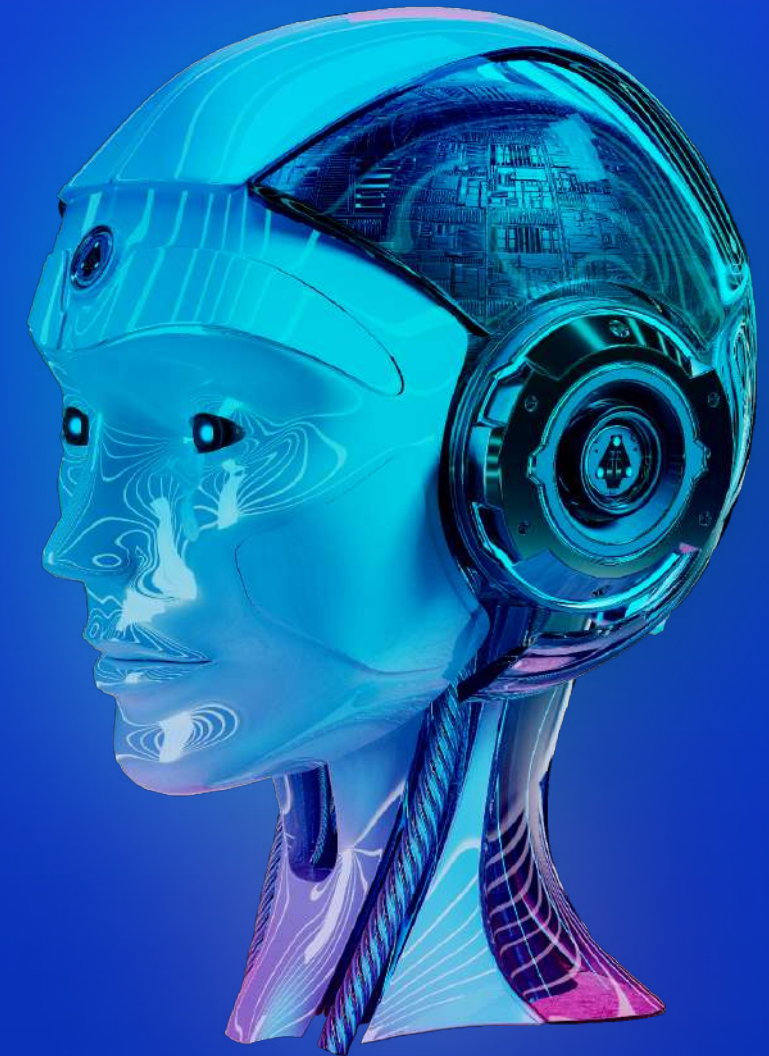

Instant performance

Robot instantly gets the taken decisions done, which leads to loss lowering and income growth

Artificial intelligence advantages

Many banks and exchanges – (traders) make redundant thousands of highly qualified traders, analysts and risk managers, investing millions of dollars in inventions, based on artificial intelligence.

This is the next step on the way to maximal trading profitability on financial markets, more advanced than classic algorithmic trading. Artificial intelligence is permanently studying, improving its performance every single moment.

The calculations show the company's profitability. The investor's profitability depends on the amount of his investment. The distribution of returns starts at 50:50 and ends at 85:15 in favor of the investor.

Financial Ecosystem

SWCT

S-Wallet Convertible Token

SWCT is a freely convertible token created by the company in accordance with the BEP20 standard in the Binance Smart Chain network. It is designed to maintain a stable economic component, making secure and instant financial transactions around the world.

The main characteristics of SWCT token:

- Name: S-Wallet Convertible Token
- Ticker: SWCT
- Consensus algorithm: PoS
- Price: \$1
- Blockchain: BSC (Binance Smart Chain)

SWCT applications

✓ Investment instrument

Users can use SWCT to create investments in available destinations.

✓ Receiving rewards and returns on investments

Bonuses and rewards, as well as profits from investments in referrals, are accrued in SWCT.

✓ Depositing and withdrawing funds

Replenish personal balance, withdrawal and transfer to other users via SWCT.

✓ Income stabilization

Protecting SWCT from volatility allows investors to stabilize their income and minimize the risk of loss.

✓ Unlimited transfers between users

Users can instantly transfer funds anywhere in the world.

✓ Payment instrument

Using SWCT as a means of payment for services and investment products.

Advantages of SWCT

-  **Additional opportunities** for earning and investing in the cryptocurrency ecosystem.
-  **Stability.** The SWCT economic model is protected from volatility and external economic factors.
-  **Transparency.** Transactions go through the blockchain, and information about the number of transactions is automatically updated.
-  **Safety.** All known mistakes of predecessors and analogues are taken into account.
-  **Anonymity.** The developer does not interfere with operations.

SWCT Roadmap

1

Implementation in the S-Group ecosystem

2

Integration of SWCT in the digital space, presentation on the world's leading platforms

3

Maximum distribution, implementation for personal and business use, payment for services, etc.

SWCT - cryptocurrency prospects and stability of funds!

Easy entry into the world of digital finance

S-Wallet – a multi-currency wallet in the ecosystem for storing, receiving, sending, and exchanging digital assets

✔ Functionality

Buy, store, convert cryptocurrencies in one place

✔ Convenience

Easy to use, no need to download anything to your device

✔ Speed

Any transactions within the payment system are carried out instantly

✔ Security

Advanced safety standards and an increased level of control at every stage

The S-Wallet ecosystem roadmap

Reward Pool

Distribution of commission costs in the ecosystem among SWP holders

Staking program

A wide range of available currencies for staking in one place

Lending Platform

Lending and borrowing of cryptoassets

S-Wallet for business

Module for corporate customers to reach a new generation of customers

Swap tokens

Between ERC20 and BEP20 networks

Loan

USDT / USDC secured by own assets

Yield farming

The practice of placing or freezing cryptocurrency in exchange for a reward

S-Pad

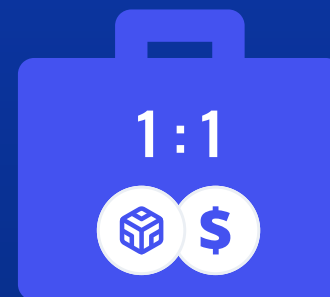

A platform with new, promising crypto projects

SWP Liquidity Mining

How SWP Liquidity Mining Works

SWP Liquidity Mining works as follows: the user provides a 1:1 SWP/USD pair equivalent to the dollar to the liquidity pool, thereby increasing the overall liquidity on the DeFi-platform. SWP tokens are awarded for the delivery of assets between all investors as a reward.

Liquidity Mining

Pair:	SWP/USD	Liquidity provider fee:
Timeframe:	90, 180, 365 days	Set up - 2,5%
Rate:	Floating, APY 140-160%	Remove - 2,5%
Min. investment:	\$100 (50% in USD / 50% in SWP)	
Reward:	SWP	

Company Commission:

90 days = 25% of earned SWP

365 days = 15% of earned SWP

180 days = 20% of earned SWP

IPO/SPAC

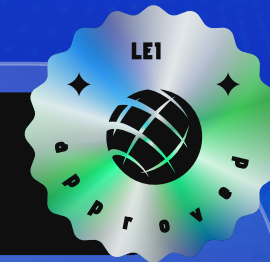

TRUST MANAGEMENT

Why is it profitable to invest with us?

Personal wealth management

- ⊗ Minimum investment \$10,000
- ⊗ Low allocation percentage
- ⊗ High commission rates
- ⊗ Daily market analysis
- ⊗ Parsing new and promising IPOs

Investing with S-IPO

- ✓ Minimum investment \$500
- ✓ The percentage of allocation is higher due to the volume of investment
- ✓ Lower commission at the expense of the size of the deposit
- ✓ Risk Management Department
- ✓ Expert analysis of company potential

S-IPO entry threshold

Pharmaceuticals

Benefits

Full vertical integration

Production - Brand - For sale

*Only 0.5% of companies in the market are vertically integrated

A team of professionals

Compared with market indicators, it turns out to grow twice as much product for the same volume of production

Understanding of market trends

Successful experience in brand building and sales

Financial review and evaluation

CBD Switzerland:

The cost of production: 200 - 300 Euro per kg

Greenhouse wholesale price: 750 Euro per kg

Wholesale price Indoor: 1,200 Euro per kg

Price of own products in partner Sales Point: 2,500-3,500 Euro per kg

Price of their own products in their MarketPlace & vending machines: 5,000 - 7,000 Euro per kg

Example: (3,000 Euro (average selling price per kg) - 300 Euro (cost price) * 3,800 (kg) =
= 10,260,000 Euro profit

Roadmap

1

Create THC production facilities in 4 new regions, the first in Portugal within 2-3 years

2

CBD – to increase production by three times in three years

3

Launch your own vending machines

4

Launch recycling plants

5

Expanding the product line

Training and financial literacy

There is constant training.
Online and offline, both locally,
regionally and internationally!

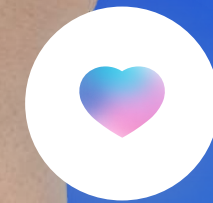

Partners-investors actively use the company's investment tools and the knowledge gained during training. Create personalized quality of life and quality of life improvement programs, and train their teams to do it!

S-Charity

New Generation Charitable Foundation

To be able to change other people's lives for the better is a great joy!

Become as rich as possible with us and above all internally!
